Summary

Passionate Computer Science Engineering student with a strong foundation in programming and front-end development. Proficient in HTML, CSS, JavaScript, ReactJS, and Java, with experience in building responsive web applications. Skilled in Data Structures and Algorithms for solving complex problems and optimizing performance. Developed a blog platform with features like user authentication, email verification, and CRUD functionality using Redux, Material UI, and Appwrite.

TECHNICAL SKILLS

Programming Languages : HTML, CSS, JavaScript, Java

Frameworks/Libraries : Tailwind CSS, React js, Redux Toolkit, Node js, Express js

Tools/Platforms : Git, Github

Expertise : Data Structures and Algorithms

PROJECTS

Blog Web App

Developed a responsive and user-centric blog platform with a focus on front-end design and functionality.

- **Role:** Front-End Developer
- **Technologies:** HTML, Tailwind CSS, JavaScript, ReactJS, Redux Toolkit, Material UI, Appwrite
- **Live Link** : <https://blogapp-mu-puce.vercel.app>
- **Github** : https://github.com/Amar-Gupta-721/Blog_Web_App
- **Highlights** :
 - Designed and implemented a responsive UI using Tailwind CSS and Material UI.
 - Managed application state with Redux Toolkit, ensuring a seamless user experience.
 - Integrated with backend services via Appwrite for authentication, email verification, and CRUD operations.

Todo Application

Developed a feature-rich and responsive To-Do application focused on task management and user interaction.

- **Role:** Front-End Developer
- **Technologies:** HTML, Tailwind CSS, JavaScript, ReactJS, Redux Toolkit
- **Live Link** : <https://todo-nine-olive.vercel.app/>
- **Github** : <https://github.com/Amar-Gupta-721/ToDo>
- **Highlights** :
 - Built a responsive and intuitive UI using Tailwind CSS, enhancing user experience across devices.
 - Managed state with Redux Toolkit for smooth performance.
 - Integrated key features such as completion tracking, edit and delete functionalities,
