SUMMARY

Detail-oriented Full Stack Developer with strong expertise in MERN stack, REST APIs, database management, and scalable application development. Skilled in building responsive, high-performance web applications with clean architecture, problem-solving mindset, and collaborative teamwork approach.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, HTML, CSS, SQL
- **Frontend:** React.js, Next.js, React Router, Redux Toolkit, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases:** MongoDB, MySQL
- **Authentication & Security:** Clerk Authentication, Google OAuth, JWT-based Authentication
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Vercel, Render, ChatGPT
- **Core Concepts:** : Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), RESTful Architecture

PROJECTS

Pixora AI – AI Image Processing SaaS Platform (Next.js Full-Stack)

🔗 [Live Demo](#) | [GitHub](#)

- Built an AI image processing SaaS platform using Next.js, TypeScript, MongoDB, and Cloudinary.
- Implemented Clerk authentication and protected routes for secure user and credit management.
- Integrated Cloudinary transformations including background removal, object recoloring, generative fill, and image restoration.
- Developed a credit-based SaaS system with Stripe payments, providing 10 free credits to new users and paid plans for additional transformations.

CityCare – Citizen Complaint Management System (Full-Stack MERN)

🔗 [Live Demo](#) | [GitHub](#)

- Built a full-stack civic platform for complaint registration with location and media uploads.
- Implemented JWT-based authentication with role-based access for Citizens and Officers.
- Integrated REST APIs, Google OAuth, and email-based password recovery to support real-world workflows.
- Applied modular design and clean coding practices to simplify maintenance and future enhancements.

ShopSmart – E-Commerce Platform (Full-Stack MERN)

🔗 [Live Demo](#) | [GitHub](#)

- Developed a full-stack e-commerce platform with separate dashboards for users and admins.
- Implemented JWT authentication, role-based authorization, secure payment integration and RESTful APIs.
- Optimized media handling using Cloudinary, improving performance and scalability by 25%.
- Enhanced user experience by ensuring 95%+ mobile responsiveness and faster load times.

TRAINING & CERTIFICATIONS

MERN & Java DSA Training (IKIGAI School of AI, 80 hours)

Hands-on training on MERN stack development and strengthened problem-solving skills through DSA in Java.

EDUCATION

B.Tech – Computer Science & Engineering (2021 – 2025)

Babu Banarasi Das University, Lucknow | **82.55%**
